DATE: 19.01.2024 AT 10.30 AM
VENUE: SRI MA SARADA DEVI HALL

A Brief about Pell

- In 1657 in Europe Fermat proposed finding integer solutions of
- The general method for solving was discovered by Brouncker in 1621 and Wallis in his book on Algebra
- The problem was again taken up by the mathematician Euler and Lagrange published the results
- Due to an error of Euler the problem was named as "Pell's equation".
