Address of the Key Note Speaker

**Professor Dr Lipi Ghosh**

## What is a Research Paper ?

- A **research paper** is more than the sum of your sources, more than a collection of different pieces of information about a topic, and more than a review of the literature in a field. A **research paper** analyzes a perspective or argues a point.
- A **research paper** is the culmination and final product of an involved process of research, critical thinking, source evaluation, organization, and composition.
